

KALEO

Kaleo Chaplaincy Grant

Why Be a Kaleo Chaplain?

- As we work to be purposeful in our discipling with students at HBU, we hope to see the development of those to believe not a set of facts, but in the person of Jesus Christ our Lord. The Kaleo Chaplaincy Ministry is a tangible way that students can make a gospel difference in the lives of those with whom they live, eat, share a class, and grow. The spiritual formation of our students is extremely important and is encouraged as students live and learn to “do life” together.

What is a Kaleo Chaplain/What do they do?

- Through the Kaleo Discipleship grant, the hope is that relationships will organically develop between the resident and Kaleo Chaplain through personal conversation, prayer, and residential life activities.
- This role is not designed to be a counselor but to be a friend who cares and walks with each other on the spiritual journey as fellow students.
- Through this journey, it is our prayer that community will develop through accountability and transparency with growth occurring and then continue to be lived out in community.

What is required as a Kaleo Chaplain?

- Exhibit a willingness and excitement to become like Christ through establishing and encouraging intentional relationships with others within the assigned housing areas.
- The student chaplain is required to commit serving for two consecutive semesters and live in the HBU residence life community throughout the chaplaincy experience.
- The application process includes application submission, interview with a committee, and if accepted for the position, a grant-funded scholarship will be applied for the 2021-2022 academic year.
